They will also study 'Warhorse' by Michael Morpengo including analysing techniques he uses to create dramatic effect.

Science

Plants and cells:

Sexual Reproduction in Flowering Plants
Fertilisation & Seed Formation
Seed Dispersal & Adaptations

Healthy Lifestyle:

What is a Healthy Lifestyle? (Diet, exercise, balance)
Nutrition – Food Groups & Balanced Diet (Eatwell plate style)
Lifestyle Choices & Their Impact (sleep, screen time, smoking, drugs, alcohol – safe)

PE

Students will focus on:
'Physical Health and Wellbeing'
Breathing Rate
Long Term Effects of Exercise
Warming Up
Heart Rate

Year 8 – Autumn 2

Maths

- Plotting points in all 4 quadrants
- Plotting and drawing straight line graphs
- Data – Read and interpret tables and graphs
- Plot and interpret scatter graphs
- Probability including 2-way tables and sample space diagrams

Personal Development

'Celebrating Difference'
Prejudice and Discrimination
Injustice
When things go right
Bullying
How can I make a difference?

Art

'Beasts'

Clay pinch pot monsters
Mod Roc beast faces
Acrylic painting skills
Christmas Craft and community piece

Food

Students will learn how to prepare and cook a range of savoury and sweet dishes including pizza, teriyaki chicken, spicy beef nachos and brownies.

English

Students will study War Poetry & A Christmas Carol
Intro to War Poems and exploring meanings and language of selected Poems.
A Christmas Carol
Study of the key themes, Characterisation and language analysis.

Science

Biology – Cells and Cell Division: Exploring cell structure, specialised cells, cell division (mitosis), and the role of cells in growth and repair.

PE

Students will study:
'Attitude and behaviours of a Leader'
Attitude & Behaviour
Commitment
Patience
Respect

Year 9- Autumn 2

Maths

Students will study:

- 2D, 3D shapes: Identification, nets, area and volume
- Angles: Measure, draw
- Construction: Circles, triangles

Personal Development

'Celebrating Difference'
Equality
Understanding Difference
The Power of Positive language
Bullying
Discrimination

Art

Students will work on:
Mod Roc Celebrity faces
Acrylic painting skills
Clay slab pots
Christmas craft and community piece

Food

Students will prepare a range of savoury and sweet dishes including pizza, teriyaki chicken, spicy beef nachos and brownies.

English

Students will study
Speaking and Listening –
Functional Skills Level 1/2 - Presentation &
Discussion
Identify relevant information from extended
explanations or presentations.
Respond effectively to detailed or extended
questions and feedback.

Science

Students will study:
Physics – Forces: Investigating types of forces,
motion, Newton's laws, velocity–time graphs, and
applications of force in everyday life..

PE

Entry Level PE

A range of sports to improve skills, tactics
and decision making in preparation for their
practical assessment.

Year 10- Autumn 2

Maths

Students will study

- Solve equations and inequalities
- Represent inequalities on a number line
- Straight line graphs

Personal Development

Students will study:
'Celebrating Difference'
Equality
Equality in the workplace
Multicultural Society
Power in Relationships
Challenging Inequality

Art

GCSE portfolio building
Exploring independent themes

Food

Students will learn to prepare a range of
savoury and sweet dishes including pizza,
teriyaki chicken, spicy beef nachos and
brownies.

English

Persuasive Writing

GCSE Paper 2: writers' viewpoint and perspectives – questions 5 (writing)

Communicate clearly, effectively and imaginatively, selecting and adapting tone, style and register for different forms, purposes and audiences.

Science

Physics – Radioactivity:

Exploring atomic structure, types of nuclear radiation, their properties, effects, and uses in medicine and industry.

Physics – Electricity:

Studying electric circuits, current, voltage, and resistance, applying Ohm's Law, and comparing series and parallel circuits.

PE

Entry Level PE

A range of sports to improve skills, tactics and decision making in preparation for their practical assessment.

HamiltonSchool

A PLACE OF EDUCATION, GROWTH & OPPORTUNITY

Year 11- Autumn 2

Maths

Students will study:

- Expanding and factorising
- Solve linear equations and inequalities
- Change the subject of the formula
- Function machines and function notation

Personal Development

'Celebrating Difference'
Challenging inequality
Equality in the Workplace
Bullying
Multicultural Society
Power in Relationships

Art

GCSE portfolio building
Exploring independent themes

Food

Students will prepare a range of savoury and sweet dishes including pizza, teriyaki chicken, spicy beef nachos and brownies.
